

Association

History of Science Society Membership

The Canadian Science and Technology Historical Association (CSHTA) now has an agreement with the History of Science Society (HSS) for our members to join the HSS at a reduced rate for one year. This applies only to the first year of membership and does not apply to current HSS members.

Founded in 1924, the History of Science Society is the world's largest

society dedicated to understanding science, technology, medicine, and their interactions with society in historical context. Over 3,000 individual and institutional members across the world support the Society's mission to foster interest in the history of science and its social and cultural relations.

The HSS publishes *Isis*, *Osiris* and their on-line Guide to the Profession. To

see the other benefits of HSS membership see: www.hssonline.org/society/membership/mf_join.html

To take advantage of this agreement call the University of Chicago Press at 733-753-3347. Identify yourself as a CSTHA

member and ask for the reduced rate. The rate for CSTHA members living in Canada is US \$35.85 (including GST).

News / Nouvelles

NRC Received Historical Recognition

Ottawa—Since its inception in 1916, Canada's National Research Council (NRC) has improved the lives of Canadians and shaped the nation's chemical heritage by supporting and advancing research in both fundamental and applied chemistry.

On 20 October 2004, Dr. Michael Raymont, NRC President (Acting), and Dr. Pudupadi Sundararajan, FCIC, The Chemical Institute of Canada Chair, commemorated NRC's achievements by unveiling a plaque designating the organization as one of Canada's first National Historic Chemical Landmark. Students from

NRC's Partners in Education schools joined this celebration, which also highlighted National Chemistry Week held this year from 16 to 23 October 2004.

The Canadian Chemical Landmarks Program recognizes Canada's scientific and technical heritage by acknowledging historically important achievements in chemical sciences and engineering and encouraging the preservation of Canadian sites connected with these achievements.

Reconnaissance du rôle historique du CNR

Ottawa — Depuis sa création en 1916, le Conseil national de recherches du Canada (CNRC) a contribué à l'amélioration de la vie des Canadiennes et des Canadiens et a façonné le patrimoine national en chimie en soutenant les progrès de la recherche en chimie fondamentale et en chimie appliquée.

Le 20 octobre 2004, Michael Raymont, président du CNRC (par intérim), et Pudupadi Sundararajan, MICC et président de l'Institut de chimie du Canada, soulignèrent les réalisations du CNRC en dévoilant une plaque et en désignant le CNRC Monument historique national de

la chimie au Canada. Des élèves des écoles du programme Partenariats pédagogiques du CNRC se joignirent à la cérémonie qui marquait également la Semaine nationale de la chimie tenue cette année du 16 au 23 octobre.

L'objectif du Programme historique des monuments nationaux de la chimie est de faire connaître le patrimoine scientifique et technique du Canada en rappelant les grands moments des sciences et du génie chimique tout en veillant à ce que les sites canadiens associés à ces moments historiques soient préservés.

Canadian History—Department of History, University of Lethbridge

The Department of History at the University of Lethbridge invites applications for an eighteen-month term position in Canadian History to begin 1 January, 2005. The successful candidate will be required to teach Canadian History courses at the second and third year levels, as well as a first year introductory Western Civilization survey. Applicants should have a Ph.D. at or near completion and teaching experience at the university level. The University aspires to hire individuals who have demonstrated considerable

potential for excellence in teaching, research, and scholarship. The University is an equal opportunity employer and offers a non-smoking environment. Located in southern Alberta, near the Rocky Mountains, Lethbridge offers a sunny, dry climate which is surprisingly mild for the prairies, excellent cultural and recreational amenities and attractive economic conditions. Founded in 1967, the University has an enrollment of over 7,600 students. Our focus on liberal education, selected professional programs, smaller classes,

co-op placements and involvement of students in faculty research provides the very best education available. For more information about the University, visit our web site at <http://www.uleth.ca>. The position is open to all qualified applicants, although preference will be given to Canadian citizens and permanent residents of Canada. Applications should include a curriculum vitae, transcripts, outlines of courses previously taught, teaching evaluations and publications reprints or preprints, a statement of teaching philosophy and

research interests, and names of at least three referees who are scholars in the field. Send this material and arrange for the letters of reference to be mailed directly to: Professor Heidi MacDonald, Chair, Department of History, The University of Lethbridge, 4401 University Drive, Lethbridge, Alberta, T1K 3M4, Canada. Telephone: (403) 329-2541, Fax: (403) 329-5108, or e-mail: heidi.macdonald@uleth.ca. The closing date for applications is 12 November, 2004.

History and Philosophy of Science—Fairmount College of Liberal Arts and Sciences, Wichita State

The Fairmount College of Liberal Arts and Sciences at Wichita State University is pleased to invite applications and nominations for the Curtis D. Gridley Professorship in the History and Philosophy of Science, a position newly created under the Kansas Regents' Distinguished Faculty program. This is a tenured, full-time appointment, to be made at the rank of Associate or Full Professor. The successful candidate will hold a Ph.D. in Philosophy, History, HPS or a closely related discipline. The area of specialization within HPS is open. The college seeks a distinguished teacher-

scholar with an established reputation, significant publication record, a demonstrated commitment to excellence in undergraduate teaching and general education, successful experience with diverse populations and a demonstrated commitment to diversity. The Gridley Professorship will be housed jointly in the Department of History and the Department of Philosophy. The primary teaching duties will be at the undergraduate level, although supervision of graduate research may occur within the M.A. program in History or the Master of Arts in Liberal Studies. The appointment

begins August 1, 2005, and carries with it a competitive salary and an annual research allowance. Wichita State University is located in the state's largest city and major industrial metropolitan area with a population of over a half million. To ensure full consideration, complete applications must be received no later than January 15, 2005. Review of applications will continue until the position is filled. To apply, please submit a cover letter that outlines your research and plans for introducing History and Philosophy of Science into the general education curriculum, a curriculum

vitae, sample syllabi, evidence of teaching excellence and the names and contact information of three references to: Gridley Professorship Search, Fairmount College of Liberal Arts and Sciences, Box 5, Wichita State University, Wichita, Kansas 67260-0005. For more information about this position contact Keith Pickus, Associate Dean and Search Committee Chair at (316) 978-7791, or by e-mail: keith.pickus@wichita.edu. Wichita State University is an Affirmative Action/Equal Opportunity Employer. Women and minorities are especially encouraged to apply.

Lorenz Krüger Postdoctoral Fellowship — Max Planck Institut für Wissenschaftsgeschichte

The postdoctoral fellowship is intended for an outstanding junior scholar whose current research combines perspectives from the history of science with those of the philosophy of science and/or the history of philosophy. The fellowship is named in honor of the late Professor Lorenz Krüger, of the University of Göttingen, whose work sought to connect philosophy with the history of science. The Lorenz Krüger Fellowship is awarded for a two year stay at the Institute in Berlin, beginning 1 October, 2005. The fellowship is open to scholars of all nationalities who have completed their Ph.D. no earlier than 2000 and no

later than September 2005. The stipend for applicants from abroad is € 1.900 per month. Women are encouraged to apply. The Max Planck Society is committed to employing more handicapped individuals and especially encourages them to apply. Applicants are invited to send a curriculum vitae, a brief research proposal (maximum 1000 words), and two letters of recommendation by 1 December, 2004, to: Max Planck Institut für Wissenschaftsgeschichte, Lorenz Krüger Fellowship, Wilhelmstraße 44, 10117 Berlin, Germany.

Aerospace History — National Air and Space Museum, Smithsonian Institution

The National Air and Space Museum, Smithsonian Institution, Washington, DC, provides three residential fellowships to support research in aerospace history: the Guggenheim Fellowship for predoctoral and recent postdoctoral scholars, the A. Verville Fellowship, open to academic and non-academic historians, and the Ramsey Fellowship in Naval Aviation History, which is similarly open. Stipends range from \$20,000 to \$45,000 a year, plus money for travel and miscellaneous expenses. The application deadline for the academic year 2002-2003 is 15 January, 2005, and successful applicants will be notified in mid-April. Further information can be found on the Museum website at: <http://www.nasm.si.edu/getinvolved/internfellow.cfm>. Requests for fellowship application packages should be sent

to: Ms. Collette Williams, Fellowship Coordinator, Rm. 3313, National Air and Space Museum, Smithsonian Institution, Washington, D.C. 20560-0312 United States. (williamsc@nasm.si.edu). Applications packages will be mailed around 15 November and will also be made available at the above web address. Potential applicants are also encouraged to investigate the Smithsonian Institution's Office of Fellowships and Grants program. Information can be found at: <http://web1.si.edu/ofg/>.

For more information, please contact Dominick A. Pisano (PisanoD@nasm.si.edu) or David DeVorkin (DeVorkinD@nasm.si.edu). For more information see the NASM website: <http://www.nasm.si.edu/getinvolved/fellow/index.cfm>

History of Science — American Meteorological Society

The American Meteorological Society (AMS) is pleased to invite applications for a 2005-2006 graduate fellowship in the history of science, to be awarded to a student wishing to complete a dissertation on the history of the atmospheric, or related oceanic or hydrologic sciences at an institution in the United States. The award carries a \$15,000 stipend and will support one year of dissertation research. Fellowships cannot be deferred and must be used for the year awarded, but can be used to support research at a location away from the student's institution provided the plan is approved by the student's thesis advisor. The goal of the graduate fellowship is to generate a dissertation topic in the history of the atmospheric, or related oceanic or hydrologic sciences, and to foster close working relations between historians and scientists. An effort will be made to place the student into a mentoring relationship with an AMS member at an appropriate institution. Candidates wishing to apply must be a graduate student in good standing who proposes to complete a dissertation as described above. To apply, candidates must submit the following:

A cover letter with vita; Official transcripts from undergraduate and graduate institutions; A typewritten, detailed description of the dissertation topic and proposed research plan (10 page maximum); Three letters of recommendation (including one from your dissertation advisor). Application packages and supporting materials should be sent to: AMS, attn: History Fellowship, 45 Beacon Street, Boston, MA 02108-3693, United States. Applicants will be informed by mail of application materials received. It is the applicant's responsibility to ensure that all materials are received at AMS Headquarters by the closing date; applicants are encouraged to check with AMS in early March if they have not received written notification regarding the status of their application package. Any questions regarding the fellowship opportunity may be directed to Donna Fernandez (dfernand@ametsoc.org) or Stephanie Armstrong (armstrong@ametsoc.org). Application packages must be postmarked by 11 February, 2005. Visit the website at <http://www.ametsoc.org/amsstudentinfo/scholfeldocs/index.html>

History of Medicine—Francis A. Countway Library

The Francis A. Countway Library of Medicine is pleased to offer an annual fellowship to support research in the history of medicine. Established in 1960 as a result of an alliance between the Boston Medical Library and the Harvard Medical Library, the Francis A. Countway Library of Medicine is the largest academic medical library in the United States. The Countway Library maintains a collection of approximately 700,000 volumes. Its Rare Books & Special Collections department holds 250,000 books and journals published before 1920, including 802 incunabula. The department's printed holdings include one of the most complete medical periodical collections, an extensive collection of European medical texts issued between the 15th and 20th centuries, and excellent holdings of pre-1800 English and pre-1900

American imprints. The book collection is strong in virtually every medical discipline and is particularly rich in popular medicine, medical education, public health, Judaica, and travel accounts written by physicians. The Countway's collection of archives and manuscripts, approximately 20 million items, is the largest of its kind in the United States. The manuscript collection includes the personal and professional papers of many prominent American physicians, especially those who practiced and conducted research in the New England region, and who were associated with Harvard Medical School. The Countway Library serves as the institutional archives for the Harvard Medical School, Harvard School of Dental Medicine, and the Harvard School of Public Health. The printed, manuscript, and archives

holdings are complemented by an extensive print and photograph collection and the collections of the Warren Anatomical Museum. Established in 1847, the museum houses an exceptional collection of medical artifacts, pathological specimens, anatomical models, and instruments. The Francis A. Countway Library Fellowship in the History of Medicine provides a stipend of up to \$5,000 to support travel, lodging, and incidental expenses for a flexible period between 1 June, 2005 and 31 May, 2006. Besides conducting research, the fellow will submit a report on the results of his/her residency and may be asked to present a seminar or lecture at the Countway Library. The fellowship proposal should demonstrate that the Countway Library has resources central to the

research topic. Preference will be given to applicants who live beyond commuting distance of the Countway. The application, outlining the proposed project (proposal should not exceed five pages), length of residence, materials to be consulted, and a budget with specific information on travel, lodging, and research expenses, should be submitted, along with a curriculum vitae and two letters of recommendation, by 31 January, 2005. Applications should be sent to: Thomas A. Horrocks, Ph.D., Associate, Director for Special Collections and Joseph Garland Librarian, Francis A. Countway Library of Medicine, 10 Shattuck Street, Boston, MA 02115, United States. The appointment will be announced by 31 March, 2005. The Boston Medical Library's Abel Lawrence Peirson Fund provides support for this program .

Call for Papers / Appels de communication

Science for Sale? The Public Communication of Science in a Corporate World—Cornell University (Ithaca, United States), 15-17 April 2005

Science for Sale? is an interdisciplinary weekend conference for exploring the mediation of science in a corporate environment. As public presentations of science merge with marketing and as corporate research organizations do more of the work that university researchers conduct, these kinds of observations raise timely questions about the public understanding of science with respect to authorship, ownership, and relationships of practice in science and media. The intersection of science and the corporate world presents a rich site

for analyses of public communication and understanding of science, medicine and technology. We define public communication broadly for this event to allow critical inquiry into the roles of academic journals, news journalism, museums, speeches, entertainment media, doctor-patient relations, film, advertising, art, literature, the internet, and radio. We cordially invite you to participate in this event and reflect on the theme of science, communication, and the corporate world. The conference format will include pre-

circulated papers, moderated presentations, and panel discussions with scholars and practitioners from relevant fields. We welcome abstract submissions on, but not limited to, the following topics: The corporation, media, and public understanding of science; Media ownership, journalistic practices, and public images of science in news, culture, and popular entertainment; The changing images of universities: research institutions or research corporations? Multinational entities and communicating science

in less developed countries... Abstracts of no more than 250 words and a CV should be submitted at our web site (<http://www.sts.cornell.edu/conferences/stscomm/index.php>), e-mailed to the abstract coordinator by 20 December, 2004. We are working to procure limited funding for travel, so please stay tuned to our web site for up-to-date registration details and news about our speakers. Abstract Coordinator: Lisa Onaga (Lao9@cornell.edu).

Anesthesia History Association—(Alabama, United States), 6-7 April 2005

Anesthesia History Association (AHA) 12th Annual Spring Meeting will be held 6-7 April, 2005. Abstracts for twenty-minute papers are invited on historical aspects of anesthesia, critical care medicine and pain management. Abstracts on medical humanities or ethical topics that relate to the history of one or more of these broad areas are also invited. Abstracts should be no longer than two or three pages in length; text should be in 12-point font size. If possible, abstracts should indicate the research problem, sources used, methodological approach and should contain no more than fifteen references.

Abstracts may be submitted to A.J. Wright (ajwright@uab.edu) by regular electronic mail in plain text format. Abstracts submitted in electronic format may be made available to registrants in advance of the meeting and on the AHA web site as decided by the Organizing Committee. All accepted abstracts will be included in material distributed to meeting registrants. Individuals who wish to organize a paper session around a theme should contact the committee as soon as possible. Deadline for submission is 31 January 2005. Visit the website at <http://www.anes.uab.edu/aneshist/aha2005.htm>

British Society for the History of Science—University of Leeds (Leeds, United Kingdom), 15-17 July 2005

British Society for the History of Science 2005 will be held at the University of Leeds, United Kingdom, in conjunction with the International History, Philosophy and Science Teaching Group's 2005 Conference. Alongside plenary sessions by Harry Collins and Peter Bowler, there will be joint sessions focusing on topics of interest to both organizations, including "History of Science Education," "Science Communication" and "Science and Religion in Teaching." The BSHS programme will also include sessions on a wide variety of additional topics: papers are invited on all areas of the history

of science, technology and medicine, in addition to those mentioned above. Suggestions for themed sessions are particularly welcome. Abstracts of papers (max. 250 words) should be sent to Dr Geoff Bunn, BSHS Programme Secretary, Liverpool Hope University, Hope Park, Liverpool L16 9JD, or bunng@hope.ac.uk. The deadline for abstract submission is 31 January 2005. For the latest news on the conference, travel information, and details of attractions in Leeds and the surrounding area, please visit the conference site at <http://www.bsbs.org.uk/conf/2005annual/>.

Plants and Insects in the Early Modern World—(Los Angeles, United States), 29-30 April 2005

The USC-Huntington Early Modern Studies Institute will host a major international conference entitled "Plants and Insects in the Early Modern World." The conference will be held at the Huntington Library in San Marino, California, on 29-30 April 2005. The conference organizers invite proposals for papers relating to the human understanding of plants and/or insects in any part of the world for the period c. 1450 to c.1850. The conference seeks papers from a variety of disciplines, including (but not limited to) history, art history, and literature. The conference will provide transportation

and local costs for those accepted on the program. The papers will be pre-circulated and must be available by 15 March 2005. Proposals are due no later than 15 November 2004. To be considered, please submit a one-page abstract and a c.v. not to exceed three pages to the e-mail address given below, or mail four copies to: USC-Huntington Early Modern Studies Institute, SOS, University of Southern California, Los Angeles, Calif. 90089-0034, United States. Email: emsi@usc.edu. Visit the website at <http://www.usc.edu/emsi> Deadline : 15 November 2004.

The Spectacle of Technology—Hagley Fellows Conference, Hagley Museum and Library (Wilmington, United States), 19 March 2005

The Hagley Fellows at the University of Delaware invite paper proposals for "The Spectacle of Technology." Stuart W. Leslie of the Johns Hopkins University will give the keynote address at this one-day conference. The conference will explore technology as a spectacle from an historical perspective. We conceive the topic broadly to incorporate all aspects of the human relationship with large-scale, remarkable, complex, highly technical, or otherwise extraordinary technological systems. What technologies are perceived to be spectacular, as opposed to everyday, hidden, or unremarkable technologies? Which technologies have been viewed as popular, interesting, or accessible; and which technologies are considered arcane, difficult,

or complex; and to whom? And how do these perceptions of technologies' spectacle affect their development, marketing, use, and transmission? Examples of topics would include (but are not limited to): the "technological sublime;" tourism; expert subcultures ("geekery"); amusement parks; anatomical theatres; entertainment technologies (both public and private); and the public perception or reception of new technologies. Papers covering all historical periods and on regional, American, and international subjects are welcomed. Proposals, including an 800-word abstract and a one-page CV, should be sent by 15 December, 2004, to hagley.fellowsconference@gmail.com
